FRIDAY: 2 JUNE 2023

10:00 AM - 12:30 PM | £45

# YOUR DESTINATION

*for horticulture, wellbeing and  
waterways heritage*

A PLACE TO DISCOVER AND GROW

## *Summer Pots & Planters Workshop*

Learn how to create your own pots, planters, window-boxes and hanging baskets for the summer season. The workshop includes planting up and taking home your own summer display.

You will learn about the different types of plants to use in summer displays as well as creative planting techniques. You will also learn how to choose the right pots, plants and colour combinations for your garden as well as soil mixes and watering tips to keep your blooms looking fresh.

The workshop is highly interactive with all materials and tools provided.

Navigation House is a social enterprise operated by multi-award winning charitable association Stepping Stones NI. Profits from all of our workshops are reinvested to support people with learning disabilities to develop new skills, qualifications and employment.

The workshop will include a tour of the garden with tea/coffee and traybakes on arrival.
